

## Premium VIP - Business 💼

This **Premium VIP - Business** account helps Ahmad in gathering all the property auction listings and increasing business brand exposure via his VIP-Business website. If he can make it, you can too!

Ahmad is a Real Estate Agent. He has started selling auction properties since 8 years ago. In order not to miss out on good listings, Ahmad would have to check at newspaper notices, auctioneer flyers and at least 1 portal everyday.

After shortlisting potential valuable properties, Ahmad will need to manually transfer each and every piece of information to post on all his social platforms and property websites. Ahmad would then be required to send out selected listings manually to his existing investors and clients. The time incurred for administrative work would cost him at least 50% of his productive time.

## Less Property Selection

Furthermore, the limited amount of property selections that he advertised would have cost him fewer inquiries and even the risk of losing his current and potential investors. Ahmad realized that this is not a profitable method in sustaining his business. He has to provide more options and create his own branding!

Thanks to the latest solutions by LelongTips.com.my: "Premium VIP - Business" account, Ahmad can now fully access every listing published on LelongTips.com.my and can create his own business website for business marketing.

All Ahmad needs to do is to subscribe to **Premium VIP - Business** to create a business account. He may then create a website with his preferred name (www.ahmadlelong.com).
